
Photographer at Canadians

The 2010 Canadians Organizing Committee is pleased to announce that [Bent Imaging](#) [1], sports photography specialists located in southern Ontario, has been selected as the Official Photographer for the 2010 Canadian Championships. The Official Photographer has special access to the competition floor and will be in a position to capture some excellent shots of the athletes in action.

This year, the photographer is making all images available in electronic format and copyright-free - purchasers will be free to print, duplicate and include in their own photo albums at their own discretion.

Please take some time during the competition and stop by their booth, located on the competition level at the York University facility, to review the images and make your own selections for your own CD of copyright-free photographs (details below).
