

2016 FQBS Annual Report

Québec has had another great year of twirling. This past season, we had 18 active members registered with the FQBS. We are looking to grow our numbers once more as we had in the past by offering more classes, doing more publicity and by participating in local events to help promote the sport.

We recently held a meeting where we were able to interact with the parents in order to receive their feedback and comments. We used this opportunity to further discuss the upcoming 2017 Canadian Championships and were available to answer questions in regards to different aspects of the sport. We saw some interest in the parents to participate more actively and to be more engaged in the sport.

FQBS participated in the following events this past year:

- 2 competitions in the province of Ontario; helping our athletes be exposed to various styles and levels of twirling
- Participated in the Santa Clause parade in Gatineau, QC
- Assisted in helping Brenda Arsenault-Leblanc with the translation of official documents with CBTF
- Badge Workshop hosted by CBSO and FQBS. The athletes were filmed for each badge and the videos were sent to CBTF for adjudication. 19 badges and 5 pins were passed during this workshop.

Our main objective for this year is for FQBS to be able to host another Provincial Championships in 2017 in Gatineau, Québec. We are hoping that with the 2017 Canadian Championships being close by in New Brunswick, this will help motivate us to achieve this goal. We are also planning to use this competition as a learning experience to eventually be able to host larger scale events for CBTF such as the Canadian Championships. We have already reached out to LeeAnn Wilson as well as the province of Ontario who continuously provides helpful feedback.

We would like to thank CBTF for giving us the opportunity and support we need to grow as a strong member province. We know this will be another great year full of excitement and are looking forward to it!
