Athlete Levels and Advancement	The purpose of the project is to investigate the development of a system to replace the current mandatory advancement by score. For presentation at the 2017 Fall Conference.	A project lead to be identified. Conducted mini-brainstorming session at the Coaches and Judges social evening at Canadians. Input is being summarized and will be available for the project committee as a starting point for further investigation.	On hold while the “Five Levels” project is finalized.

Technical Rulebook	Publish an online reference which is a current reflection of the specific rules that govern the events held at our competitions.	An easier way for members to search and view the information that they need without having to sift through motions or policies which can sometimes be confusing (and often need to be pieced together to come up with the current status).	An online tool “Technical Reference Manual”. This resource is available to Technical Association members via their website login. Sections continue to be added, but has proved a very useful point of reference!
Practice Judge Process Review	A review of the current practice judging processes and requirements.	This will fall into place along with the Realignment project.
