

SKILLS DEVELOPMENT PROGRAM REPRESENTATIVE REPORT 2022-2023

SDP PROGRAM PARTICIPATION

For the 2022-2023 Season, the SDP Program saw continued participation. Thank you to the coaches and athletes for switching to using the CanTwirl App for the syllabus.

I continued to receive results and update the SDP Database to track athletes' progress. This year, I received a total 41 sets of results from five provinces. The results submission process, as updated with the 2021 SDP Updates and noted on the bottom of the Master Summary, is for adjudicators to submit their results to the national rep and CC the appropriate provincial rep and coach of the athletes. Please remember to do this, as very few adjudicators have been sending in results. Thank you to the provincial reps who continue to submit results when they are not submitted via the adjudicators.

BADGE AND PIN ORDERS

I continue to monitor the sdprep@cbtf.ca inbox and coordinate badge orders. Thank you to Sue Mepham for assisting in distributing orders as of June 2023.

This fiscal year, I restocked the white ribbons and red ribbons due to demand. I continue to keep inventory of CBTF's badges, ribbons, and pins.

CERTIFIED ADJUDICATORS

Last year, existing adjudicators were required to recertify with the SDP Update to the A1 course. As of October 2022, adjudicators were required to successfully complete the update exams. Previous adjudicators who did not complete the recertification course and exams are no longer up-to-date and can no longer adjudicate.

There are currently 14 certified badge adjudicators across the country. This list is available at <https://www.cbtf.ca/article/cbtf-certified-adjudicators>.

SDP REP MEETINGS

This year, I held one meeting with the provincials reps. Attendance was low at this meeting, but I appreciate all who made time to attend. There was little to report later in the year, so we did not schedule additional meetings. I am hopeful that we will connect later in the fall.

SDP RENEWAL

As part of the roll out of the SPD Renewal, Maureen Johnson and I presented a series of three webinars highlighting the Active Start I to Maroon skills for both coaches and

adjudicators. These webinars focused on the progressions through each mode of twirling and body work.

I worked throughout the year to edit exam videos for the A1 course exam bank. The only videos in the SDP library are of the previous version. Please submit any videos that follow the renewed program to help the future adjudicators practice on up-to-date material. At the time of submitting this report, I have received zero videos.

Additionally, I corrected grammatical and input errors as reported by coaches and provincial reps in the CanTwirl App. I also gathered feedback from those who reached out with suggestions. No major changes were made this season, as we soon head into the feedback and review season for this program.

As always, any errors or feedback can be directed to sdprep@cbtf.ca.

RESPECTFULLY SUBMITTED,
SARA MOUGEOT
CBTF SDP REP
